

Global Terrorism Trends & Operational Dynamics

Dashboards :

1 : D1 - Global Trends & Geography

2 : D2 - Tactical & Target Dynamics

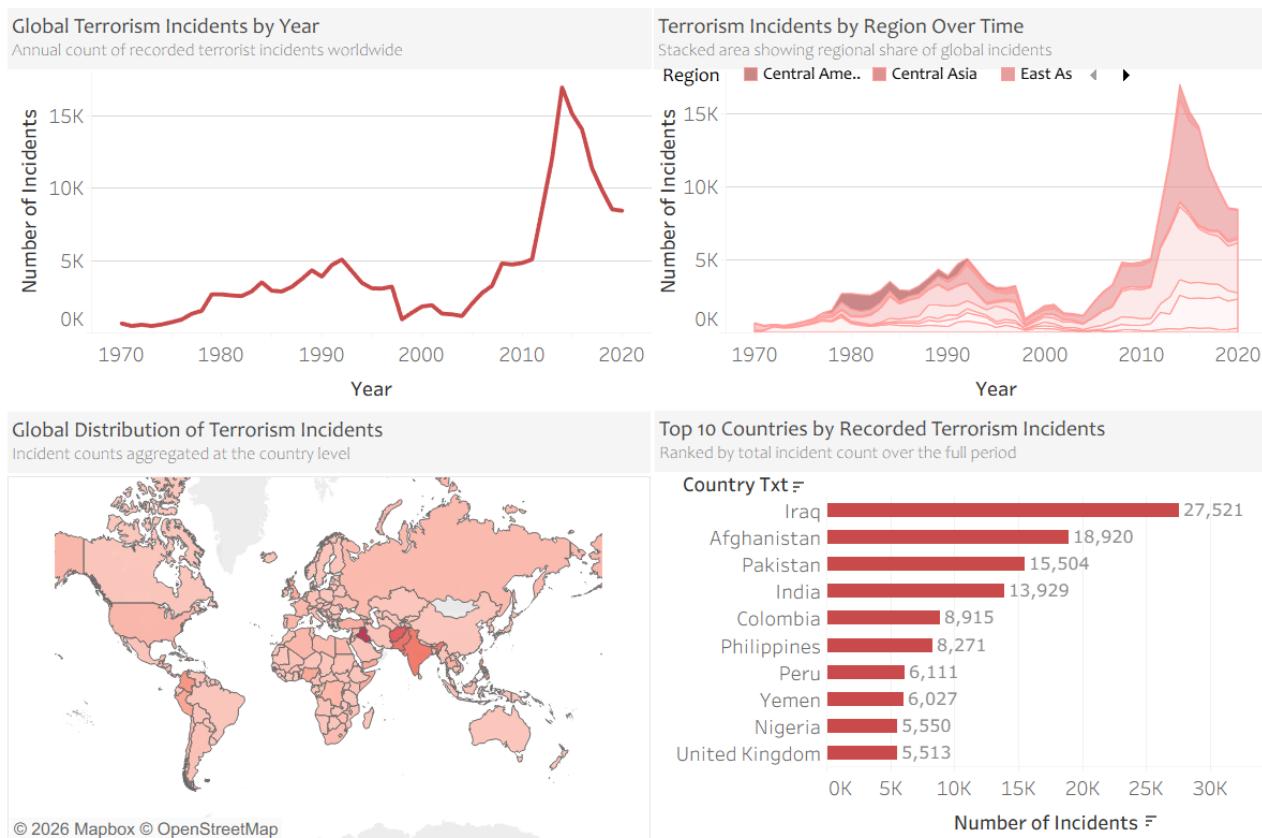

3 : D3 - Operational Complexity & Incident Characteristics

4 : D4 - Severity, Impact & Outcomes

5 : D5 - Attribution, Certainty & Analytical Limitations

Global Terrorism Trends & Geography (1970–2020)

Macro-level overview of incident patterns across time and space

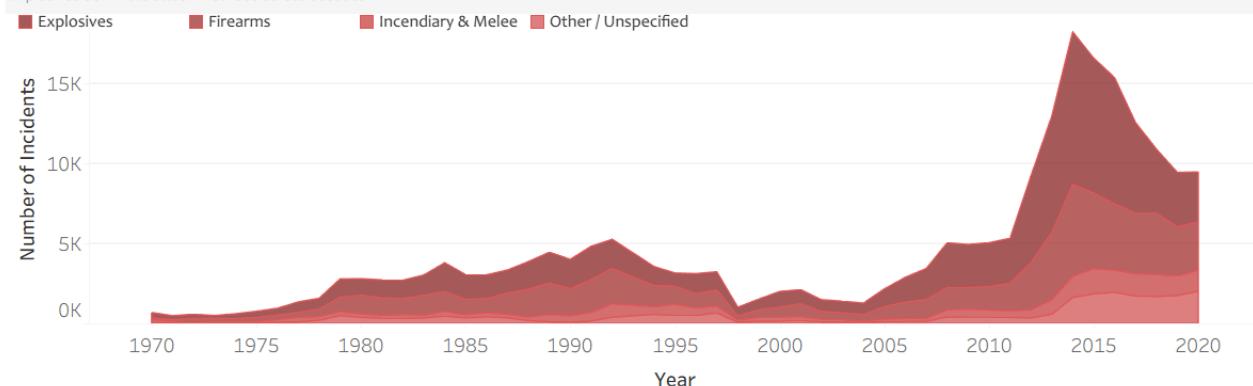

Tactical & Target Dynamics of Terrorist Incidents (1970–2020)

Analysis of attack methods, target categories, and weapon usage patterns

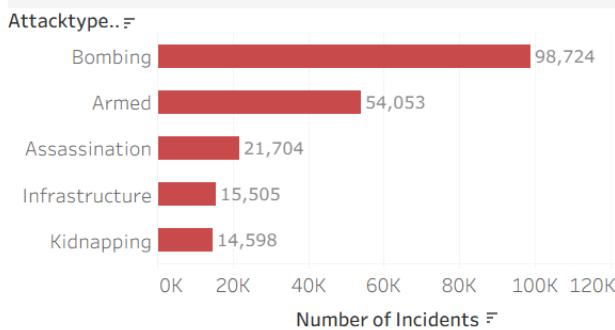

Weapon Type Share in Terrorist Incidents Over Time

Explosives dominate attack methods across decades

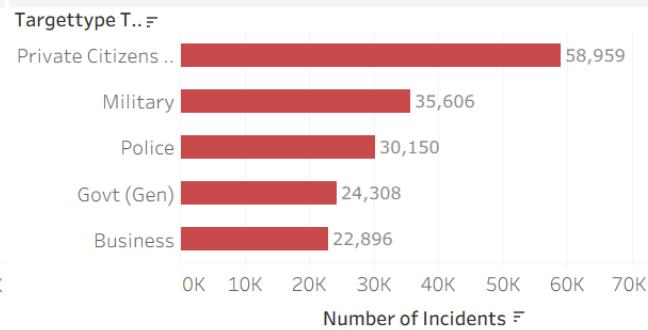

Distribution of Terrorist Attacks by Attack Type

Frequency of recorded incidents by method of attack

Distribution of Terrorist Attacks by Target Type

Frequency of recorded incidents by category of target

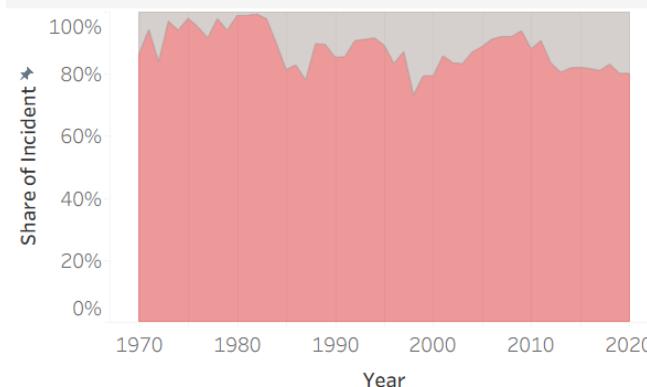

Operational Complexity & Incident Characteristics

How terrorist incidents vary in coordination, duration, and reported outcomes over time

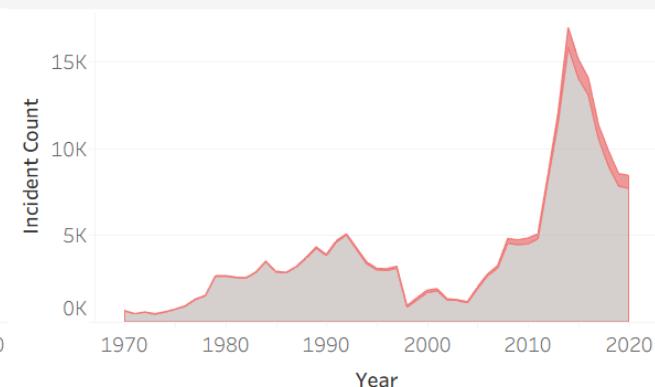

Incident Coordination Over Time ■ Multiple ■ Single

Share of incidents involving multiple coordinated events

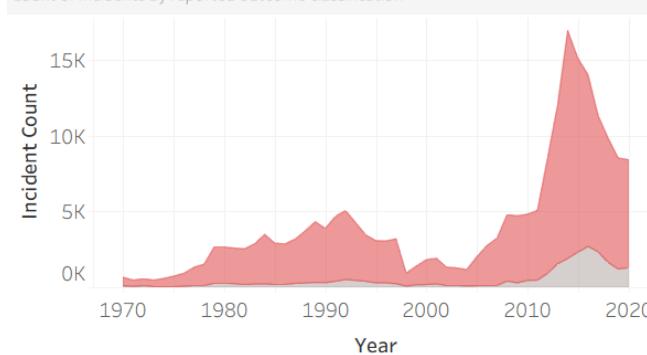

Incident Duration Over Time ■ Extended ■ Non-Exte..

Count of extended vs non-extended incidents per year

Attack Outcome Over Time ■ Successful ■ Unsuccess..

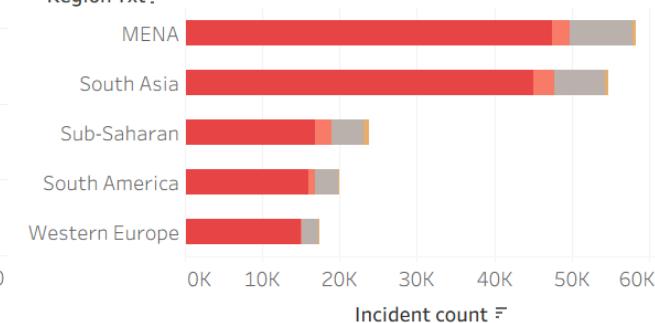

Count of incidents by reported outcome classification

Regional Incident Complexity Profile ■ Single, N.. ■ Single

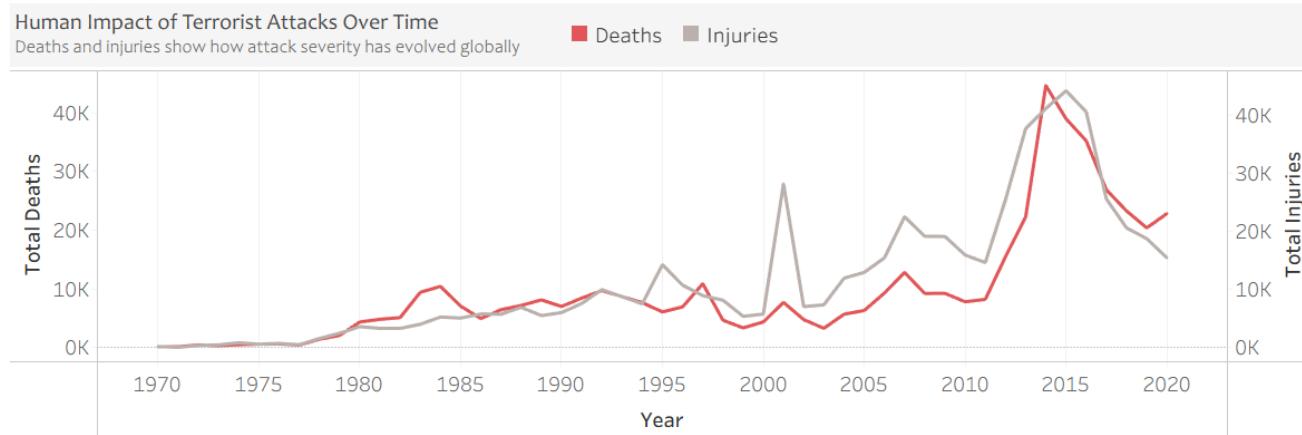

Distribution of incident coordination and duration characteristics by region

Region Txt ▶ ▷

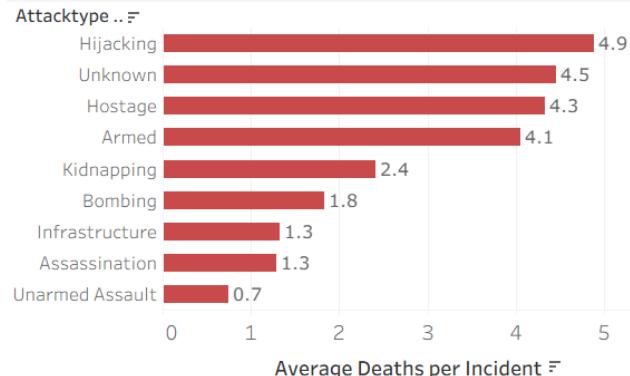

Severity, Impact & Outcomes of Terrorist Attacks (1970–2020)

Assessing human impact and attack severity beyond incident frequency

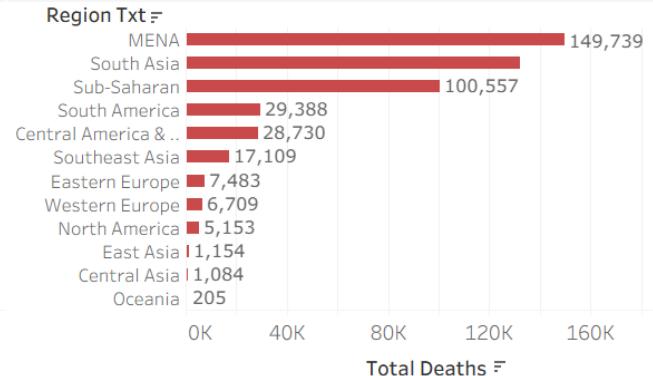

Deadliness of Attack Types

Average fatalities per incident vary significantly by attack method

Regions with the Highest Human Impact

Total fatalities reveal where the greatest loss of life has occurred

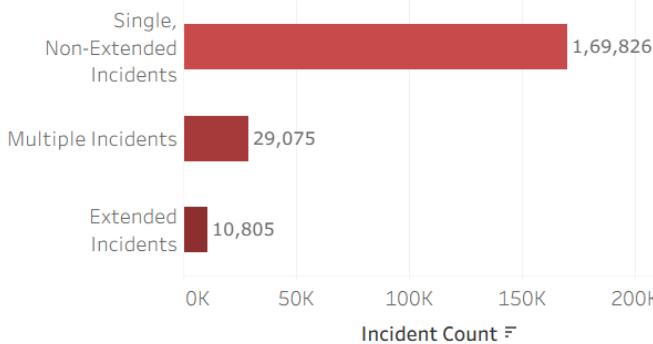

Attribution, Certainty & Analytical Limitations

Understanding uncertainty, outcomes, and complexity in terrorism data

Incident Complexity and Duration

Extended and multi-incident events introduce analytical uncertainty

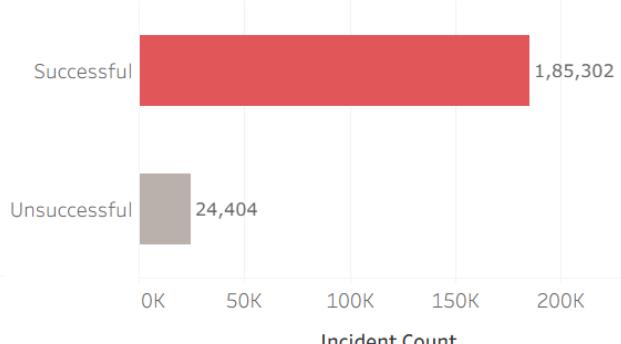

Incident Complexity

Attack Outcome Certainty

Most attacks are recorded as operationally successful

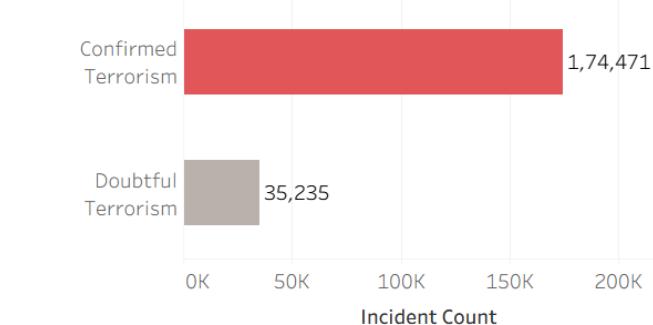

Outcome Status

Incident Classification Certainty

Some incidents carry uncertainty in terrorism classification

Incident Certainty

Reporting Certainty Over Time

Earlier years show higher uncertainty due to reporting limitations

■ Confirmed Terrorism ■ Doubtful Terrorism
